

Advanced Practical Course on In-Cell NMR & Symposium on Protein Post-translational modifications by NMR

19-23 November ,2018
Rosario, Argentina

About the course:

Proteins sample a wide variety of environments *in vivo* and these diverse conditions modulate their structure and function. In this course we will introduce to you state of the art In-cell NMR techniques to characterize proteins in the native environment of live cells.

Instructors:

Philipp Selenko (Weizmann Institute of Sciences, Rehovot, IL)

François-Xavier Theillet (IBS, Paris, FR).

Roberta Pierattelli (CERM, IT)

Fabio C. L. Almeida (UFRJ, CNRMN, Rio de Janeiro, BR)

Alejandro J. Vila (IBR-CONICET, Rosario, AR)

Rodolfo M. Rasia (IBR-CONICET, Rosario, AR)

Andres Binolfi (IBR-CONICET, Rosario, AR)

Organizers:

Andrés Binolfi, Alejandro J. Vila, Rodolfo M. Rasia
(IBR-CONICET)

Venue:

IBR-CONICET, Rosario, Argentina

Registration deadline:

13th of July, 2018.
